

Play Type	Description	Other Information
CORE	Traditional Age Grouping and Team Roster Size	Limits on Age Grouping to support Heading Restrictions and Keeper Restrictions
VIP	Configuration for VIP Program.	Limits on over-lapping age groups require this to now be a separate program than a Division as it has been in the past
Extra	Configuration is to support the Extra Program. Extra is competitive, try-out based program where teams are in an internal AYSO gaming-circuit	Internal Competitive Playing Circuit
Reduced Side	Configuration allows for Reduced Play or playing less than standard found in National Rules & Regulations II.C.1 and supports II.C.3 - which allow for smaller size teams playing small sided matches. This should also be used to support Grade-Based Divisions	To Support <b>Grade-Based Programs - use this Play Type</b> . The age grouping here will allow you to run Grade-Based programs. You may have to select up an age group from what you have in the past. (Use 9U instead of 8U)
Split Teams	Configuration allows for Teams to be larger than maximum size 50% playing rule would allow. This play type is to support teams being split to play where the team is divided and plays on two fields or is split to play a game on the same field with the team.	Used for Regions running 6U and 8U programs where the team is divided at game time onto two fields to play. This is also used to support "pick-up" styles of play where players on the team are divided into two teams for the game. This play type still requires that players play in at least 50% of game.
Alliance	This configuration support the Alliance program. Alliance is a competitive, try-out based program for teams who want to play in both internal and external gaming circuits as members of both AYSO and US Youth Soccer or US Club Soccer	Exteranal Competitive Playing Circuit
U8 5v5	Configuration allows for 8U to play 5-a-side which supports National Rulese & Regulations II.C.2. This option is not available for Regions that have 8U teams with 7U Players.	
Camps & Clinics	Configuration allows for the maximum flexibility	Set up to support camps and clinics programs and other Jamboree sytle of programs
United	Configuration for AYSO United Programs	

Reduced Side Configuration
